

"On this tour I have been touched by the music we have created and I have had the privilege of watching our music touch others' lives as well. I have learned how wonderful music has an incredible way of touching others' lives. I will never forget the amazing people I have met here in Europe. Making music that 'pierces' people's hearts, as said to me by an audience member of ours, has truly been marvelous." -Rachel Hales

"Tour has been full of wonderful memories and incredible experiences. I've learned so much about myself and others. I've felt the power of music personally and have watched it touch others. This trip was truly wonderful." -Karyn Alvey

"What makes music inspiring is the human element. Music must be created in the hearts and minds of the performers before it can be shared. It's not only the music that penetrates the soul, it's the beauty, light, and love that emanates from the performers. On tour, we saw each other at our best, our brightest, and most satisfied, when we were singing together...and it is the faces of the singers on stage, radiant with purpose and basking in musical wonder, that I will always remember." -Jessica Lee
